4. FIRST AID MEASURES
   Eye Contact: Hold eyelids apart and flush eyes with plenty of tepid water for at least 15 minutes. Seek medical attention if irritation persists.
   Ingestion: If patient is conscious, ONLY induce vomiting as directed by trained personnel. NEVER give anything by mouth to an unconscious person. Seek medical attention immediately.
   Inhalation: Remove to fresh air. If not breathing, give artificial respiration or oxygen by trained personnel. Seek immediate medical attention.
   Skin Contact: Remove contaminated clothing. Wash affected area with soap and water. Wash clothing before reuse. If irritation persists, obtain medical attention.

5. FIRE FIGHTING MEASURES
   Flash Point: Not applicable
   Method: Not available.
   Flammable Limits: Limits not established.
   Extinguishing Media: Use extinguishers appropriate for the surrounding fire conditions. CO₂, foam, water.
   Special Fire Fighting Procedures: Firefighters must wear NIOSH approved or equivalent self-contained breathing apparatus and full protective clothing.

6. ACCIDENTAL RELEASE MEASURES
   Spill or Leak Procedures: Wear a respirator and appropriate personal protective equipment (See Exposure Controls/Personal Protective Section). Let molten metal cool before picking up. Molten metal may have reclaim value.
   Dispose of following all Federal, State and Local regulations. Ensure area is ventilated. Dusty areas require respiratory protection. Do not sweep areas that may generate lead containing dusts.
7. HANDLING AND STORAGE

Handling: Keep containers tightly closed when not in use. Use care to avoid spills. Avoid breathing vapors from heated material. Avoid contact with eyes, skin and clothing. Use with adequate ventilation.

Storage Precautions: Store product in tightly capped original containers in a cool, dry area. Keep away from heat and flame. Store away from incompatible materials. Dispose of empty containers properly.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Exhaust or point source ventilation should be sufficient to control airborne levels and keep exposure levels low. Always ventilate equipment that holds molten metal. Avoid exposure to lead containing fumes, if applicable.

Personal protection:

Eyes: Chemical safety glasses/goggles. Face shield for molten metal.
Respirator: An approved or compliant marked air-purifying respirator with a HEPA/particulate cartridge is recommended under certain circumstances where airborne concentrations are expected to be elevated or when proper ventilation is not adequate to protect the worker.
Skin: Compatible chemical resistant gloves is recommended. Recommend protective outer garment, apron and sleeves as appropriate. Avoid skin exposure.
Other: Eyewash fountain in work area. Avoid the use of contact lenses in high fume/dusty areas.

Work/Hygienic Practices: Maintain good housekeeping. Clean up spills immediately.

Avoid eating, smoking or drinking in the work area. Wash hands thoroughly with soap and water immediately upon leaving the work area. Follow standard lead worker requirements.
