Flammable Limits: Limits not established
Extinguishing Media: Use extinguishers appropriate for the surrounding fire conditions. Dry chemical or media suitable for surrounding fire. Water is not recommended.
Special Fire Fighting Procedures: Firefighters must wear NIOSH approved self-contained breathing apparatus and full protective clothing. Hazardous decomposition products formed under fire conditions. – hydrogen chloride gas, gallium oxides

6. ACCIDENTAL RELEASE MEASURES

Spill or Leak Procedures: Under certain situations, as appropriate, wear a respirator and personal protective equipment (See Exposure Controls/Personal Protective Section). Absorb spill with inert material (e.g., dry sand or earth), then place in a chemical waste container. Dispose of following all Federal, State and Local regulations. In the EU refer to the Special Waste Regulations. Large spills require assistance by the fire department. Keep unnecessary personnel away from spill. Do not allow this material to enter any waterways. Avoid breathing dust/aerosol.

7. HANDLING AND STORAGE
Handling Precautions: Keep containers tightly closed when not in use. Use care to avoid spills. Avoid breathing dusty material. Avoid contact with eyes, skin and clothing. Use in well-ventilated area. Avoid contact with moisture. Wear appropriate personal protective equipment (PPE), such but not limited to as eye protection/gloves/lab coat/face shield/respirator.

Storage Precautions: Store product in tightly capped original containers in a cool, dry area. Keep away from heat and flame. Store away from incompatible materials. Empty containers may be considered hazardous as they contain product residue. Air sensitive material.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Exhaust ventilation is recommended to control airborne levels of dust/aerosols/fumes.

Personal protection:

Eyes: Chemical safety glasses/goggles and face shield for operations that may involve a splash hazard.

Respirator: A NIOSH approved or EU compliant CE marked air-purifying respirator with a fume particulate/acid chemical cartridge is recommended under certain circumstances where airborne concentrations are expected to be elevated.

Skin: Compatible chemical resistant rubber gloves such as nitrile should be worn. Lab coat and sleeve protectors or other protective clothing as required for protection. Use proper glove removal techniques to avoid skin contact with this product.

Other: Eyewash fountain in work area. Safety shower is also recommended. Avoid the use of contact lenses.

Work/Hygienic Practices: Maintain good housekeeping. Clean up spills immediately. Avoid eating, smoking or drinking in the work area. Wash hands thoroughly with soap and water immediately upon leaving the work area.
