If ventilation is not available use of additional respirator and face protection is recommended at a minimum. Avoid the generation/accumulation of vapors in the work area.

**Personal protection:**

**Eyes:** Wear chemical safety glasses/goggles. The addition of a face shield may be necessary during some work practices.

**Respirator:** An authority approved air-purifying respirator with an (multi-gas) acid gas/particulate/organic vapor filter is recommended under certain circumstances where airborne concentrations are expected to be elevated.

**Skin:** Compatible acid/alcohol resistant chemical gloves are recommended.
